TESTIMONIAL LETTER

Sceptre Communications Inc.

In January of 2008 we had a new Avaya telephone system installed for our office by Sceptre Communications Inc.

Dave Stosky over saw the installation. We found Dave to be very knowledgeable and professional about all matters concerning our new system. The system was installed with as little disruption to our office as possible and he provided in house training on the new system.

We have been very happy with our Avaya telephone system. It has numerous features which help in our day to day office functions. Dave had several suggestions on how Avaya could switch to a night message, change our on-call emergency number and how we could transfer to cellular numbers. I feel the Avaya telephone system helps our company to function more proficiently.

I would recommend the Avaya System as well as the services of Dave Stosky and Sceptre Communications to anyone considering a new phone system.
