RE: Sceptre Phone Systems

I am pleased to submit this letter of recommendation on behalf of Sceptre. We have recently implemented their phone system into our office and are very pleased with the service they have provided us. Two major things that have stood out for us is that they have delivered the product they said they would and have demonstrated outstanding follow up and customer service. We also appreciated the training session they provided us once they had implemented the system. The transition from our old system to the new one has been seamless and we find the new program to be clear and comprehensive. We highly recommend Sceptre and feel sound giving this recommendation to any of their potential clients going forward.

Kind Regards,

Kim Weidman
